(b) whether Government are aware of the fact that such a scheme if any will lead to corruption and favouritism on one hand and killing of fresh talents on other hand; and

(c) if so, what action Government propose to take in this regard?

THE MINISTER OF STATE OF THE MINISTRY OF INFORMATION AND BROADCASTING (SHRI AJIT PANJA): (a) to (c) In order to

improve the standard of serials and to have them handled by the creative people in the field of art and films, a new scheme has been introduced. According to this scheme, producers and directors will be registered for production of TV serials/series for Doordarshan. Accordingly, an advertisement was given in the leading National Dailies in English and Hindi in various regions. The last day for the receipt of the application was 30.10.1987. These applications, after proper entries in the Register, will be placed before a Selection Board constituted by the Government consisting of eminent persons from the field of film and communication and the Board will examine these applications and prepare a panel.

The present system has been introduced so that creative persons in the field of Art and Films are encouraged to come forward for the production of sponsored serials. Since the applications will be scrutinised and decisions taken thereon by a Selection Board consisting of senior officials and eminent non-officials the system has been insulated against the possibility of any unfair selection. This scheme, however, is only applicable to the production of sponsored programmes for Doordarshan. The doors of Doordarshan are and will remain open for the production of programmes as per its requirements.
